Company Profile 2026

Government and Commercial Logistics Solutions

Pacific Defense Contracting LLC delivers responsive logistics, procurement, transportation, aviation, port, and exercise support for U.S. Government and military operations across the Indo-Pacific.

EXPERIENCE	PRIMARY REGION	OPERATING MODES
10+ years combined	INDOPACOM	Air Land Port

COMPANY OVERVIEW

Mission support that moves

Our mission is to provide efficient, cost-effective, and mission-focused logistics and procurement solutions that support operational readiness. As an independent U.S.-based contractor, Pacific Defense Contracting combines regional execution with hands-on coordination for fluid, time-sensitive missions.

The team is structured to respond under tight timelines, absorb last-minute changes, and align local resources to government requirements. Clients receive one accountable partner coordinating people, equipment, transport, supplies, and services from requirement through delivery.

Integrity | Dependability | Excellence

End-to-end support in theater

From one urgent requirement to a complete exercise package, Pacific Defense Contracting coordinates the resources that keep operations moving.

No	Capability	Delivery Focus	Representative Support
01	Procurement and Supply	Responsive sourcing and delivery for embassies, bases, ships, and field teams.	Office and construction materials; communications equipment; consumables and mission supplies
02	Transportation	Passenger and cargo movement from routine transfers to heavy haul.	Vans, sedans, buses and utility vehicles; box, wing, container and low-bed trucks; truck crane and specialized movement
03	Material Handling	Equipment and operators for receiving, staging, loading, and onward movement.	Forklift, crane and manlift support; container handling and warehousing; on-site logistics coordination
04	Aviation Support	Ground support aligned to aircraft schedules and mission requirements.	Jet fuel and into-plane service; ground handling and lavatory service; passenger, hotel and aircrew coordination
05	Exercise Sustainment	Field infrastructure and recurring services for camps, bases, and exercises.	Tents, cots, lighting and generators; water, sanitation, catering and waste; fuel, refrigeration and climate control
06	Port and Maritime	Ship-side logistics, port access, cargo movement, and local coordination.	Port services and crane support; ship spares and equipment delivery; ad hoc support as requirements change

Flexible by design. Support can be scoped as a single service, a coordinated multi-modal movement, or a recurring sustainment package built around the mission schedule.

Work proven in the field

Pacific Defense Contracting supports multinational exercises, cargo staging, transportation, air mobility, container operations, and port logistics across demanding operating environments.

PARTNER-FORCE COORDINATION

SUPPLY STAGING

AIR MOBILITY SUPPORT

PORT LOGISTICS

Air

Fuel, ground handling, passenger movement, lodging, and ad hoc aircraft support.

Land

Passenger transport, cargo movement, heavy haul, material handling, and field sustainment.

Port

Ship-side delivery, crane operations, equipment movement, and local port coordination.

Operational photographs are examples of supported activities and environments. Government and military references do not imply endorsement.

DELIVERY APPROACH

A single accountable logistics partner

Responsive coordination	Rapidly organize local resources and adapt execution as schedules, locations, and requirements change.
Mission-focused delivery	Align sourcing, movement, handling, and sustainment services to operational priorities and readiness.
Regional execution	Coordinate air, land, and port support across the Indo-Pacific through practical, hands-on management.

LEADERSHIP COMMITMENT

Mission success comes first. We take pride in our ability to adapt quickly, deliver under pressure, and operate in challenging environments.
